Marley Alutec is part of Aliaxis UK, comprising of Durapipe, GPS, Hunter Plastics, Marley Plumbing and Drainage, Multikwik and Philmac.

About us

Marley Alutec is the UK leader in innovative aluminium guttering, rainwater drainage and eaves solutions.

Providing a complete service and product solution tailored to the needs of each project, we offer the most sustainable, durable and high-performance systems on the market.

Technical support

Our Technical Services team has many years of experience in all aspects of eaves and roof drainage design for both modern and traditional building methods. We can assist with:

- Correct system choice
- Roof drainage design calculation
- Installation advice
- Bespoke design service
- Scheduling quantities
- Fully itemised estimates

All Alutec product specifications and brochures can be downloaded from www.marleyalutec.co.uk

For further technical queries, please call our Technical Services Department on **01234 344108**.

Online calculators

Go to www.marleyalutec.co.uk/calculators to take advantage of our innovative online calculators

- Estimating tool – Produce instant list value estimates for all your Marley Alutec product requirements
- Rainwater drainage design tool – Ensure your pitched and flat roof projects are in full compliance with the rainwater drainage design standard (BS EN12056-3)
- Specification manager – Produce specification documents based on Marley Alutec's wide range of innovative aluminium rainwater products and eaves solutions

Building information modelling (BIM)

Marley Alutec is at the forefront of product and service innovation and has a full suite of BIM files for the rainwater and Evoke fascia and soffit ranges; to download them, visit www.marleyalutec.co.uk

CPD service

Alutec is a leading CPD provider for aluminium rainwater, fascia, soffit and coping systems. Our RIBA accredited CPD covers all aspects of eaves design, selection and correct installation. To date we have presented to over 5,000 construction industry professionals.

Standards

All Alutec systems are manufactured to and in excess of the appropriate BS or EN Standards.

Environmental

Marley Alutec is committed to continually reducing its environmental impact and is accredited to ISO 14001:2015.

Product availability

Our products are available to order at any national and regional building, plumbing and roofing merchants, where you will be able to obtain discounts from the list price. Many of our products are delivered in just 2 days to the designated sites.

Overview of Products

Gutters, downpipes and hoppers

Marley Alutec's total eaves solutions are available in a wide variety of aesthetics to suit all styles of property.

evolve

- As easy to install as PVC
- Industry leading flow rates reducing number of downpipes required
- Cost effective Heritage Black finish emulates appearance of cast iron

traditional

- Suitable for listed buildings and conservation areas
- Ideal for replacement of old cast iron system or reflect traditional styling of a new building
- Manufactured to original British Standard cast iron dimensions (BS 8530).

aligator

- Sleek and modern solution for rainwater disposal
- Snap-Fit boltless jointing systems reduces installation times by up to 40% compared to traditional bolted systems
- Manufactured using marine grade aluminium to withstand corrosion even in the harshest of environments

Fascia and soffit systems

evoke

Our Evoke range complements perfectly the long-life expectancy and low maintenance of Marley Alutec aluminium gutter and downpipe systems.

- Suitable for use up to 18m in height
- Installs like PVC, no specialist trades required
- Various profiles and sizes available
- Can be fixed directly to roof truss ends
- 12 different PVDF paint colour options that will naturally resist the buildup of dust, grime and algae; keeping maintenance costs to a minimum.

Our standard Fascia and Soffit systems are manufactured from 4mm thick aluminium composite material. These products are suitable for use up to a maximum height of 18m.

For installations carried out above 18 metres in height, and for non-standard colour requirements, our solid sheet aluminium products are available.

Coping systems

evoke

Marine grade aluminium coping system with a decorative polyester powder coated finish. Ideal for use where exceptional durability and aesthetics are key.

- Easy to position and fix without damage to panels
- Thickness of panels is 2mm (for up to 400mm wall width) or 3mm (for over 400mm wall width)
- Weathertight butyl adhesive seal - will maintain a 100% weathertight seal throughout its lifespan and outlast EPDM compression seals normally used in coping systems
- Fire rating A2-s1, d0 (Unlimited use)
- Choice of 19 architectural grade PPC range of standard RAL colours

Drainage outlets

elite

Our Elite range of roof and balcony drainage outlets are compatible with all waterproofing membranes and build-ups.

- Unrivalled flow performance
- Saves on project costs by reducing overall downpipe numbers
- Prevents cold bridging
- Unique and reliable clamping feature
- Simple and fast installation
- Anti-Vortex dome grate available
- Accompanying online roof drainage design software

Colour Options

All Alutec systems are available with an architectural grade Polyester Powder Coat (PPC) paint finish.

Architectural grade PPC paint finishes are designed for exterior use and maintain their colour and gloss level for longer. Paint's life expectancy is enhanced further by Alutec's choice of aluminium.

We only use the highest quality marine grade aluminium, greatly increasing durability. The colour range includes Heritage Black, which has a textured surface to accurately replicate the appearance of traditional cast iron gutters and downpipes.

Standard colours for rainwater and coping systems

Additional colours, finishes and gloss levels are available, price on application. This chart is a representation of the actual colours, for exact match please ask for sample plates. **Mill finish is also available on request.**

The standard range of RAL colours are with 30% gloss level (unless otherwise stated).

Standard colours for fascia and soffit systems

PVDF paint system to a 30-40% gloss level.

We are able to supply our Fascia and Soffit in non-standard colours, using aluminium sheet. Please call 01234 321996 for further information or email projects@marleyalutec.co.uk

General Information, Returns & Cancellation, Delivery & Lead Times

General Information

Prices quoted are trade list prices and exclude Value Added Tax (VAT). Customer attention is drawn to the Company's official Terms and Conditions of Sale. Goods are supplied strictly in accordance with these terms and conditions, copies of which are freely available from our website.

Marley Alutec products are manufactured to a constant high standard. Marley Alutec will therefore not accept responsibility for failure of any installation which includes components not supplied by us. Only use Marley Alutec recommended sundries, as other products may be incompatible and impair the life expectancy of the system.

Before placing your order please check that you have ordered the appropriate amount of sealant, solvent cleaner, screws, nuts/bolts/washers and touch-up paints. Where applicable when ordering, please clearly quote the colour and the RAL code.

Roof outlets are manufactured in aluminium. Grates and clamping rings or flanges are polyester powder coated.

Returns Policy

Returns of polyester powder coated product will be for Heritage Black only, with prior agreement and at the discretion of Marley Alutec. Any agreed returns will incur a 50% re-stocking charge which covers the handling, checking and administration of the returned items.

We are unable to accept the return of any other Polyester Powder Coated (PPC) or Soffit, Fascia & Coping product.

Cancellation Policy

Most Marley Alutec products are supplied on a "made to order" basis, therefore any non-stocked Polyester Powder Coated (PPC), Evoke fascia, soffit and copings, and bespoke items cannot be amended or cancelled once production has commenced (normally within 24 hours of receipt of order).

Marley Alutec will issue an order acknowledgement confirming our interpretation of your order therefore please ensure this is checked. Any alterations to this order should be notified immediately. Bespoke items will require a drawing approval prior to manufacture commencement.
